बेंगलूरु। प्रमुख दूरसंचार विनिर्माण कंपनी आईटीआई लिमिटेड ने भारओएस-सक्षम डिजिटल उपकरणों और सेवाओं के निर्माण और सुविधा प्रदान करने के लिए जेएंडके ऑपरेशंस प्राइवेट लिमिटेड के साथ समझौता ज्ञापन पर हस्ताक्षर किए हैं। इस सहयोग का उद्देश्य डिजिटल इंडिया के डिजिटल सुरक्षा बुनियादी ढांचे को बढ़ाने के लिए मोबाइल, राउटर, टैबलेट और अन्य सहित भारओएस-सक्षम डिजिटल उपकरणों का निर्माण करना है।

भारओएस उपयोगकर्ताओं को उनके डिजिटल इंटरैक्शन की इंटीग्रेटी सुनिश्चित करते हुए भरोसेमंद वातावरण उपलब्ध

करता है। इस साझेदारी के साथ, आईटीआई लि. डेटा सुरक्षा और उपयोगकर्ता गोपनीयता को प्राथमिकता देते हुए भारत के डिजिटल परिदृश्य को आगे बढ़ाने की अपनी प्रतिबद्धता की पुष्टि करता है।

इस अवसर पर आईटीआई लि. के अध्यक्ष और प्रबंध निदेशक राजेश राय ने कहा, 'भारओएस के साथ हमारा सहयोग डिजिटल इंडिया के सुरक्षा बुनियादी ढांचे को मजबूत करने के मिशन में महत्वपूर्ण मील का पत्थर है। भारओएस की उन्नत सुरक्षा सुविधाओं को एकीकृत करके हमारा लक्ष्य अत्याधुनिक प्रौद्योगिकी समाधान उपलब्ध करना है, जो उपयोगकर्ता की गोपनीयता और डेटा सुरक्षा को प्राथमिकता देते हैं।'

जेएंडके ऑपरेशंस प्रा.लि. के सीईओ कार्तिक अय्यर ने

कहा, 'हम डिजिटल डोमेन में नवाचार और सुरक्षा को बढ़ावा देने के लिए यह साझेदारी करके रोमांचित हैं। भारओएस की स्वदेशी तकनीक, आईटीआई लि. की विनिर्माण क्षमता के साथ मिलकर भारत में एक सुरक्षित और अधिक लचीले डिजिटल पारिस्थितिकी तंत्र का मार्ग प्रशस्त करेगी।'

भारतनेट, डिजिटल जनगणना, रक्षा, केंद्रीय पुलिस बल जैसी राष्ट्रीय महत्व की डिजिटल पहल को अब भारओएस द्वारा संरक्षित किया जा सकता है। बताया गया कि डिजिटल समावेशिता और सुरक्षा को बढ़ावा देने के साझा दृष्टिकोण के साथ आईटीआई लि. भारओएस के साथ आत्मनिर्भर भारत के प्रति प्रधानमंत्री के दृष्टिकोण को पूरा करने के लिए प्रतिबद्ध है।

ITI Limited inks pact with JandK Operations to make BharOS-enabled devices

“This collaboration aims to manufacture and provide BharOS-enabled digital devices, including mobiles, routers, tablets, and more, to enhance the digital security infrastructure of Digital India,” said ITI Limited in a statement Friday.

ETTelecom Updated On Feb 17, 2024 at 08:54 AM IST

NEW DELHI: Telecom PSU ITI Limited has signed a memorandum of understanding (MoU) with JandK Operations for manufacturing and providing devices and services powered by the indigenously developed mobile operating system, BharOS.

“This collaboration aims to manufacture and provide BharOS-enabled digital devices, including mobiles, routers, tablets, and more, to enhance the digital security infrastructure of Digital India,” said ITI Limited in a statement Friday.

The partnership reaffirms ITI’s commitment to advancing India’s digital landscape while prioritizing data security and user privacy, as per the statement.

"Our collaboration with BharOS marks a significant milestone in our mission to bolster Digital India's security infrastructure. By integrating BharOS's advanced security features into a diverse range of digital devices, including mobiles, routers, tablets, and more, we aim to provide cutting-edge technology solutions that prioritize user privacy and data protection," said Rajesh Rai, Chairman and Managing Director, ITI Limited.

"We are thrilled to partner with ITI Limited to drive innovation and security in the digital domain. BharOS's indigenous technology, coupled with ITI Limited's manufacturing prowess, will pave the way for a safer and more resilient digital ecosystem in India," said Karthik Ayyar, CEO, JandK Operations.

The statement added that digital initiatives of national importance, such as BharatNet, digital census, defence, central police forces, can now be protected by BharOS.

ETTelecom in its February 14 edition exclusively reported that homegrown handset maker Lava will be the first to debut the indigenous mobile OS in its phones in the market.

"For the next six to seven months, the idea will be that there will be around 500-plus Lava-designed, Lava manufactured phones with the Bharat operating system (BharOS) which will be used to work on and assess if all the apps can run on it or not," Rishi Bhatnagar, President-R&D & Global Alliances, told ETTelecom in an interview.

ITI Limited and JandK Operations Join Forces to Produce BharOS-Enabled Devices and Boost India's Digital Sovereignty

In a strategic move that marks a significant milestone in India's journey towards digital sovereignty, ITI Limited has joined forces with JandK Operations to spearhead the production of BharOS-Enabled Digital Devices. This collaboration, announced on February 16, 2024, promises to revolutionize the digital security landscape in India by delivering a suite of devices that prioritize user privacy and data protection. With ITI Limited's expansive manufacturing prowess, spread across six facilities including a pivotal one in Srinagar, Jammu and Kashmir, this partnership is poised to set a new benchmark in the realm of secure and reliable digital technology.

A Leap Towards Digital Sovereignty

In an era where digital security is paramount, the alliance between ITI Limited, a stalwart in telecommunication equipment manufacturing, trading, and servicing, and JandK Operations, shines as a beacon of innovation and trust. The primary aim of this partnership is to bolster India's digital security infrastructure by introducing devices powered by BharOS. This indigenous operating system is celebrated for its unwavering commitment to safeguarding user privacy and enhancing data security, virtues that resonate deeply with ITI Limited's mission to propel India's digital landscape into the future.

Empowering India with BharOS

BharOS emerges as a pivotal player in this collaboration, embodying the principles of user autonomy and stringent data protection. By integrating BharOS into digital devices such as mobile phones, routers, and tablets, ITI Limited and JandK Operations are not just manufacturing technology; they are crafting shields that protect the digital identities of Indian citizens. This initiative is not merely about enhancing connectivity; it's about fortifying the trust between technology and its users, ensuring that every digital interaction is secure, private, and reliable.

Manufacturing Excellence Meets Digital Innovation

ITI Limited's rich heritage in telecommunications, combined with its extensive manufacturing capabilities, sets the stage for this partnership's success. Each of the company's six manufacturing facilities, especially the one strategically located in Srinagar, Jammu and Kashmir, will play a crucial role in bringing BharOS-enabled devices to the hands of millions. This collaboration between ITI Limited and JandK Operations is a

testament to India's capability to not only envision a future of digital security and sovereignty but to manifest it through innovation, determination, and strategic alliances.

As ITI Limited and JandK Operations embark on this journey to manufacture and distribute BharOS-Enabled Digital Devices, they are not just creating technology; they are weaving the fabric of a secure digital future for India. This partnership underscores a shared vision of a digitally empowered nation, where every citizen can navigate the digital world with confidence, assured of their privacy and the security of their data. The road ahead is paved with challenges, but it is also brimming with the promise of a new era of digital security and sovereignty for India.

About BharOS

BharOS is an Indian government-funded project to develop a free and open-source operating system (OS). The project aims to reduce the dependence on foreign OS in smartphones and promote the use of locally developed technology. BharOS comes with No Default Apps (NDA). This means that there are no default apps. Users can download the apps they want to use. The idea is to allow users to have more control over the permissions that apps have on their device, as they can choose to only download apps that they trust to access certain features or data on their devices. The OS provides access to trusted apps from organisation-specific Private App Store Services (PASS). A PASS provides access to a curated list of apps that is said to be thoroughly vetted and meet certain security and privacy standards. To know more, please visit <https://jandkops.in/>.
